Preamble

In this group work we shall be discussing examples of effective models/approaches to accelerate SDGs in the Covid-19 Era:

As the UN Secretary-General has said ‘...the creativity of the response to building back better must match the unique nature of the crisis – and the magnitude of the response must match its scale...’

We want to hear from the various stakeholders represented here – what are some of the stories that can inspire Ugandan and mobilize actions around the country to promote the implementation of the SDGs

What are some examples of actions taken in different localities to build resilience and inclusive recovery in the context of new realities of post COVID-19, so that the planet and people we serve could emerge stronger together from the crisis

The Focus
